# CONTENTS

Sl. No.	Title	Page #
	<i>Executive Summary</i> .....	i-ii
	CHAPTER 1: PROJECT BACKGROUND AND METHODOLOGY .....	1
1.1	Project Background.....	1
1.2	Objectives of the Assignment .....	1
1.3	Methodology .....	1
1.3.1	Key Issues .....	1
1.3.2	Literature Review .....	2
1.3.3	Baseline Study Design .....	2
1.3.4	Sample Design for Quantitative Survey.....	2
	CHAPTER 2: DEMOGRAPHIC PROFILE OF THE RESPONDENTS .....	4
2.1	Introduction .....	4
2.2	Demographic Characteristics .....	4
2.2.1	Demographics of households under survey.....	4
2.2.2	Household size .....	4
2.2.3	Age composition .....	4
2.2.4	Disability and HIV status .....	5
	CHAPTER 3: SANITATION FACILITIES.....	6
3.1	Introduction .....	6
3.2	Utilization of improved sanitation facilities.....	6
3.2.1	Main toilet facility currently used (Availability) .....	6
3.2.2	Access to Latrines .....	6
3.2.3	Sanitation service levels: Distance to toilet facility .....	7
3.2.4	Sanitation service levels: Cleanliness and functionality of latrines .....	8
3.2.5	Availability of water and soap and water in or close to the latrine .....	8
	CHAPTER 4: HOUSEHOLD WATER FACILITIES .....	10
4.1	Introduction .....	10
4.2	Water Availability.....	10
4.2.1	Current main source of drinking water.....	10
4.2.2	Water service levels: Location of water sources .....	11
4.2.3	Water service levels: Length of time per day that water is available .....	11
4.2.4	Water service levels: Current water use per day .....	11
4.2.5	Coverage level of safe water intervention in 8 slums .....	12
	CHAPTER 5: HAND WASHING AND WATER QUALITY .....	13
5.1	Introduction: .....	13
5.2	Hand Washing Practice.....	13
5.3	Observation .....	14
5.4	Hand Washing after defecation.....	15
5.5	Water Quality Test.....	16
	CHAPTER 6: BOTTLENECK ANALYSIS .....	18
	CHAPTER 7: RECOMMENDATION.....	25

## ***List of Figures***

Figure 2.1:	Household members by age and Gender.....	4
Figure 3.1:	Hygienic and unhygienic toilet facility .....	6
Figure 3.2:	Toilet facilities by the community residents .....	6
Figure 3.3:	Toilet facilities by type.....	7
Figure 3.4:	Location of improved latrines within 20 meters from household .....	7
Figure 3.5:	Household which is used by 2 or less HHs .....	8
Figure 3.6:	Hand washing facilities (water and Soap) available inside or within 5 meters .....	8
Figure 3.7:	Water and soap availability in or close to the latrine .....	8
Figure 3.8:	Utilization of improved sanitation facilities.....	9
Figure 4.1:	Current main source of drinking water .....	10
Figure 4.2:	Location of water source .....	11
Figure 4.3:	Coverage level of Safe water intervention .....	12
Figure 5.1:	Hand washing with soap after defecation .....	15

## ***List of Tables***

Table 1.1:	Slum wise Sample size of the households.....	3
Table 2.1:	Number of people surveyed .....	4
Table 3.1:	Main toilet facility currently used .....	7
Table 3.2:	Utilization of improved sanitation facilities.....	9
Table 4.1:	Mean and median length of time and range of time for water availability .....	11
Table 4.2:	Mean and median and range of water use (liters per household per day) .....	11
Table 4.3:	Safe water intervention in 8 slums .....	12
Table 5.1:	Hand washing practice after defecation .....	13
Table 5.2:	Hand washing practice before taking food 13 .....	13
Table 5.3:	Hand washing practice after cleaning baby's bottom .....	14
Table 5.4:	Hand washing practice before feeding children.....	14
Table 5.5:	Hand washing practice before preparing and serving food.....	14
Table 5.6:	Hand washing practice after defecation .....	15
Table 5.7:	% of HHs which can demonstrate their knowledge of the critical times to wash hands with soap: i) After defecation, ii) before eating, iii) before preparing food.....	15
Table 5.8:	Handwashing after defecation.....	16

## Abbreviations

CFU	Colony Forming Unit
DWASA	Dhaka Water and Sewerage Authority
E-Coli	Escherichia Coli (name of a bacterium)
FGD	Focus Group Discussion
GoB	Government of Bangladesh
HDRC	Human Development Research Center
HH	Household
ICDDR	International Center of Diarrhea Disease Research, Bangladesh
ICT	Information and Communication Technology
LIC	Low Income Community
M&E	Monitoring and Evaluation
NGO	Non-Governmental Organization
PSU	Primary Sample Unit
SRS	Simple Random Sampling
TTC	Thermo Tolerant Coliform
Unicef	The United Nations Children's Fund
VIP	Ventilated Improved Pit
WASA	Water and Sewerage Authority
WASH	Water, Sanitation and Hygiene
WSP	Water Safety Plan
WSUP	Water and Sanitation for the Urban Poor

## Acknowledgements

First of all, our big thanks goes to the project participants in the slums of Dhaka city where the project is implemented; without their active collaboration and the fruitful discussions we had with them the study would not have been achieved its objectives. The baseline survey was a challenging task both in extent and complexity with variety of activities. The appropriate designing and successful administration of this study would not have been possible without the commitment and dedication of all those who are involved in this process.

We wish to thanks to Mr. Abdus Shaheen, Country Programme Manager, Mr. Firoz Akther Chowdhury, M&E Officer, and Mr. Ayub Khan, Project Manager of WSUP and others who provided informational, technical and logistical support at different stages.

We are extremely grateful to all stakeholders who are directly or indirectly involved with this process. We specially acknowledge all the administrative staff of HDRC for their effort in the study.

Abul Barkat

Dhaka: September 30, 2014
